

collaborative solutions for administrative challenges

### Four fast facts about MACC CommonWealth

- 1** MACC CommonWealth is the result of a dream voiced by a half dozen forward-looking non-profit CEOs in 1999. After looking at their individual organization's struggles to provide high quality, cost-effective administrative services, they asked a simple question: "couldn't we do this better together?"
- 2** MACC CommonWealth is a nationally-recognized collaborative effort created by that dream, beginning as a joint venture in December 2005 and incorporated as an independent non-profit organization in January 2007.
- 3** MACC CommonWealth offers Minneapolis-St. Paul non-profits an alternative operating model that makes high-quality, low-risk administrative services achievable and affordable.
- 4** MACC CommonWealth is the antidote to what the *Stanford Social Innovation Review* describes as "The Non-profit Starvation Cycle" (Fall 2009).
